CAREER OBJECTIVE

Motivated and results-driven software engineering student seeking opportunities to contribute to innovative projects, apply problem-solving abilities, and gain hands-on industry experience while delivering impactful solutions.

EDUCATION

Bachelor of Technology — AI & Data Science (2023 – 2027)

Kongunadu College of Engineering and Technology, Trichy, Tamil Nadu | CGPA: 7.4

Higher Secondary Certificate (HSC)

Sowdambikaa Group of Schools, Thuraiyur, Tamil Nadu | Year: 2023 | Percentage: 78%

Secondary School Certificate (SSLC)

SRM Public School [CBSE], Thuraiyur, Tamil Nadu | Year: 2021 | Percentage: 67%

TECHNICAL SKILLS

Programming: Java | **Frontend:** React.js | **Database:** PostgreSQL, MongoDB | **Tools:** GitHub, Power BI

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Full Stack Development Intern — Nexitence, Trichy

- Developed full-stack web applications using React.js with responsive and user-friendly interfaces.
- Optimized database queries to improve performance and ensure faster application execution.

Machine Learning Intern — Eagle Hi-Tech Softcloud Pvt Ltd., Chennai

- Developed machine learning models for predictive analytics using data preprocessing and feature engineering techniques.
- Created data visualization dashboards and reports to present insights and support data-driven decision-making.

KEY PROJECTS & ACHIEVEMENTS

AI-Powered Area Surveillance System

Features: Python, OpenCV, YOLOv3, Real-Time Object Detection, Computer Vision, Machine Learning

- Trained a real-time area surveillance system to detect theft-related activities, process live video streams, and generate accurate object detection image results.

Expense Management System

Features: React.js, Firebase, CRUD Operations, Authentication, Expense Tracking, Data Visualization, Modern UI/UX

- Created a full-stack personal finance management application for tracking income and expenses with secure authentication and interactive dashboards.

Restaurant Website — ammakoozhkadai.com

Features: React.js, Responsive Design, Reusable Components, Franchise Enquiry Form, Mobile Optimization, Responsive UI

- Designed and deployed a responsive restaurant website showcasing business information, handling franchise enquiries, and improving customer engagement through an intuitive interface.

CERTIFICATIONS & CONTINUOUS LEARNING

- NPTEL** — Internet of Things (IoT) Fundamentals
- MongoDB** — MongoDB Basics Official Certification
- NVIDIA** — Fundamentals of Deep Learning

CORE COMPETENCIES & SOFT SKILLS

Agile Methodologies • Team Leadership • Time Management • Problem-Solving • Communication • Quick Learner
